

ARGENTINA TO SEND SUPPLIES

U. S. Will Turn Aid South American Republics.

While the State Department was announcing that the coal shipments to Argentina, recently reported held up in some American port, were delayed by an error and through no effort to bring pressure on the South-

ern Republic in conjunction with Great Britain, to raise Argentina's embargo on wheat, reports from Argentina stated that she has agreed to lend to Great Britain, France and Italy 180,000 tons of wheat and 20,000 tons of flour.

The British government, as part of the agreement, has guaranteed to re-

turn 200,000 tons of wheat between July and September from Canada and Australia. In case of the failure of the crops in those countries the British government agrees to obtain the wheat from other sources and return it to Argentina.

Argentina also has decided to permit the exportation of 110,000 tons of wheat to Brazil, Uruguay and Spain. The agreement with Great Britain indicates that Argentina is working in a close arrangement with the entente allies.

It has developed that Brazil, Argentina and other South American countries are much in need of coal, and that this government is trying to work out means to meet these needs.

BLOWS UP U-BOAT

British Sailors Win Running Fight in the Mediterranean.

New York, April 25.—A vivid account of a running fight in the Mediterranean between a German submarine and a British freighter, in which the U-boat was struck three times in an exchange of 30 shots apiece, resulting in an explosion aboard the submarine and its probable destruction, was related by Capt. James Cruddace, skipper of the steamship, on his arrival yesterday.

The engagement, according to Capt. Cruddace, occurred April 5, while outward bound from an Italian port. The U-boat opened fire at a range of 3 miles and was instantly answered by the gunners on the freighter. The artillery duel was hot, with the contestants steaming at full speed, broadside on, when a well-aimed shot from the freighter tore into the submarine.

"There was a violent explosion on the submarine," Capt. Cruddace said, "and we could distinctly see the crew

scrambling on deck. It is certain she was disabled, for there was great excitement on board, and after the explosion two more of our shots found their mark. I continued my course, for I was taking no chances. What became of the crew I cannot say, I put her out of business, all right, I'll wager that U-boat will do no more harm."

SPAINS THREAT TO BERLIN

Germany Told That Nation Will Defend Its Life.

London, April 25.—The Spanish government's note to Germany regarding Germany's submarine campaign contains a paragraph stating that if Germany continues in its determination to sink all vessels in order to defend its life Spain must take a like step to defend her life. This portion of the note says:

"If the imperial German government persists in declaring that it adheres to its determination in order to defend its life it must not be astonished if Spain, for the same reason must emphasize her right to defend her own life."

Madrid, April 25.—The government has sent another note to Germany on the submarine question, according to El Imparcial. The cabinet is carefully examining the situation created through the attacks on Spanish ships, and King Alfonso is in constant conference with the political leaders.

DUEL OVER GIRL FATAL

Her Alleged Assailant Kills Defender and Himself is Dying.

Erie, Pa., April 24.—As a result of his fight to save the honor of Hazel Sherry, 15 year old daughter of his landlord, at the Colonial Hotel, Joe Haley, of Brighton, Mass., is dead and William Burke, his alleged

assailant, is dying in Hamot Hospital.

It is alleged Burke tried to assault the girl on the third floor of the hotel, and Haley, hearing her cries, went to the rescue. A fight followed, Haley using a razor and Burke a butcherknife. The blade of the knife was imbedded in Haley's back and broken off when death came.

As soon as Haley was dead, Burke, with a dozen wounds in his body and his right hand hanging by a thread, ran two blocks to police headquarters

GERMANY AND TURKEY

The following passage from a letter written by Bismark on August 11, 1877, is opportune now that Turkey has broken off relations with the United States:

"It is impossible without deep sympathy to read of the misfortunes of these brave and friendly soldiers, or without indignation to learn of the shameful outrages committed by the Turks upon the wounded and helpless. With such barbarians it is difficult to be on good terms diplomatically and I think that all Christian powers must be indignant. For the Russians there lies in these events evidence that, in this war, they are the champions of Christian civilization against heathenish barbarism."

The letter will be found in the "Anhang," to Bismark's "Erinnerungen," on Page 273 of volume 1.

The Baltimore Sun in commenting upon the above says: Russia still seems to be fighting as a champion of civilization, but Bismark's nation seems no longer to be quite so indignant against heathenish barbarism. Is it possible that the great number of Turks now in Berlin have been drawn there by a "fellow-feeling" and that the intimacy between Constantinople and Berlin is another proof of like gravitating to like?
